- **Themes:** is a quick way to change colors, fonts and effects for the document all at once. Themes was located on the **Page Layout** tab (now **Layout**).
- The **Style Set** gallery allows you to quickly change the styles available. The Style Set was originally the **Change Styles** dropdown in the **Styles** group of the **Home** tab.
- The **Colors**, **Fonts** and **Effects** dropdowns allow you to mix and match Theme elements.
- Changing the Effects set changes the **Shape Styles** gallery of contextual **Format** tabs. For example, if you insert a shape into the document, you get a contextual Format tab.

Edit with WPS Office

what is page formatting

- Page formatting relates to formatting that normally af ects the whole page, such as page orientation. It also the following items:

Edit with WPS Office

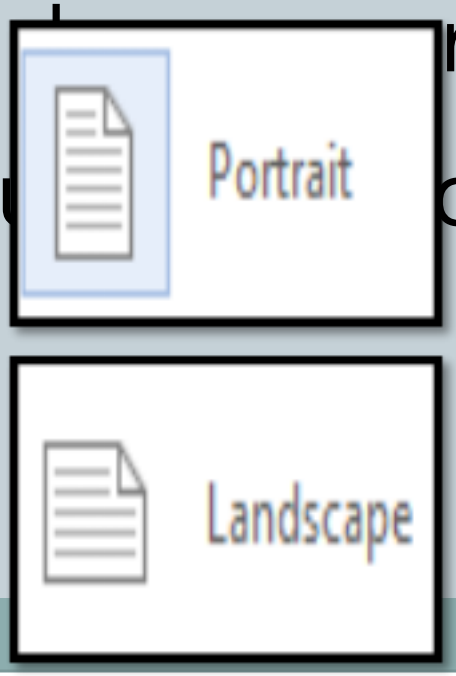
Cont….

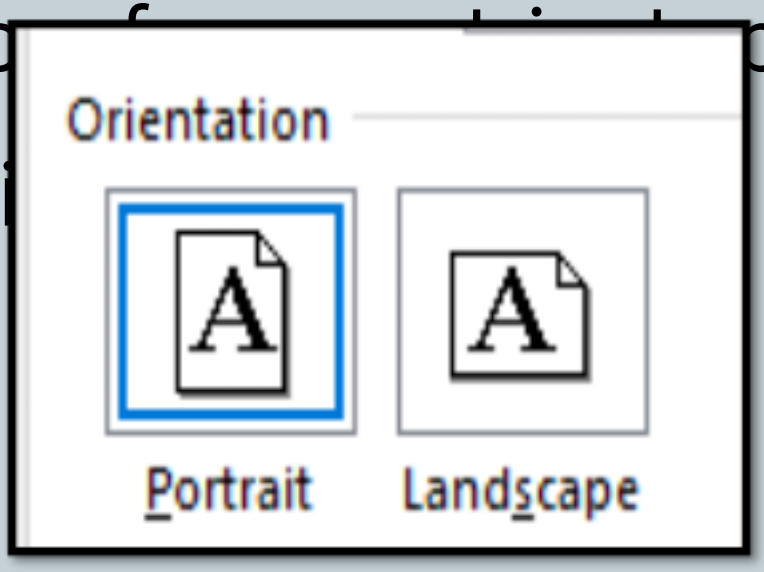
- Page orientation & Paper size
- Page Borders
- Cover pages
- Changing the page size
- Page margins
- Headers and footers
- Page numbering
- Cover pages

Edit with WPS Office

Page orientation

- Normally your Microsoft Word document will be displayed in Por tait page orientation, which is like looking at a photograph, where the long edge is the ver tcal line. You may change to Lan rientatio pes of doc ch as noti

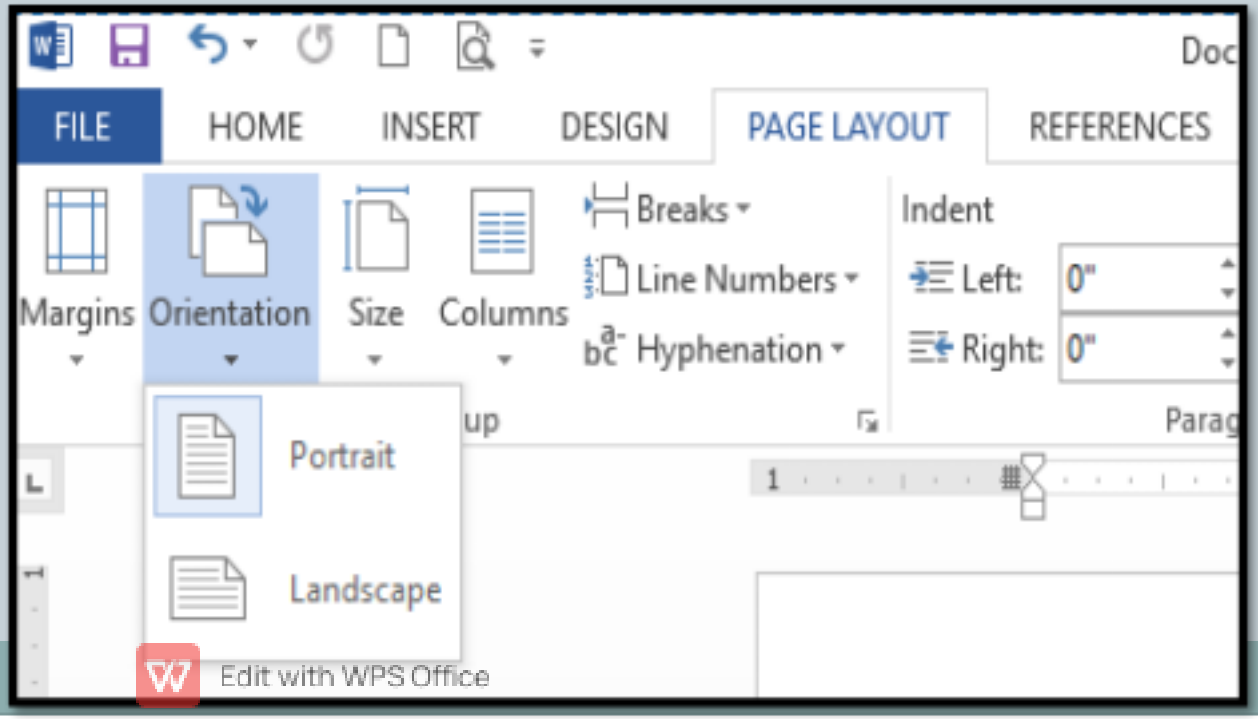




Edit with WPS Office

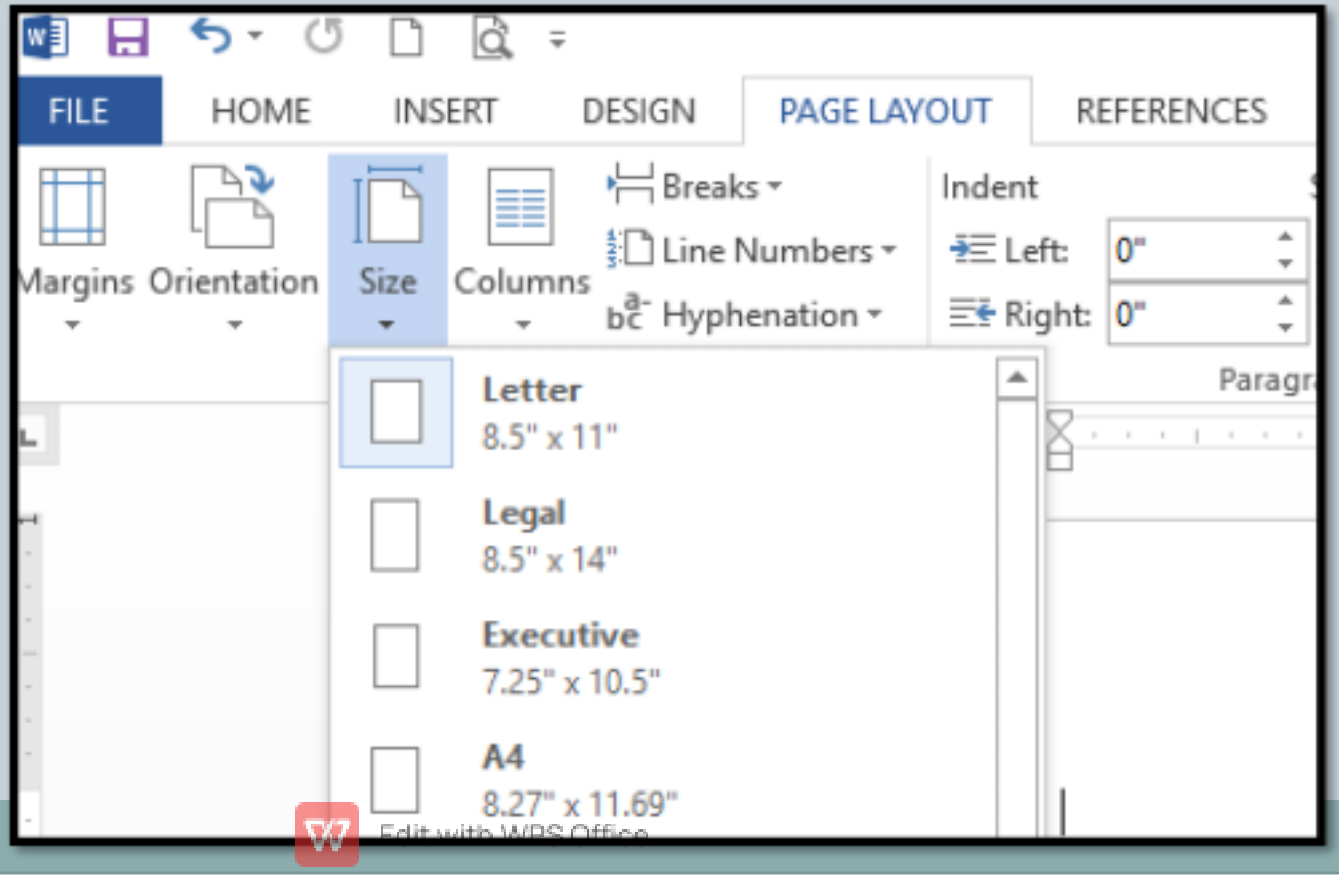
Cont….

- Click on the **Page Layout** tab> click on the **Orientation** button. A drop down list allows you to select either Por tait or Landscape page orientation.



Changing the page size

- To do this click on the **Page Layout** tab, click on the Size button, as illustrated.



Page margins

- Your document has a top, bottom, left and right margin. This is the space between the edge of your text and the edge of your page. Each margin may be increased or decreased.
- To modify your page margins, click on the **Page Layout** tab, click on the **Margins** button. A list of preset options is displayed, as illustrated:

Table 1 – Word 2013 Program Window Elements

Name	Description
Title bar	Appears at the top of the program window and displays the name of the document and the program. The buttons on the right side of the Title bar are used to get help; change the display of the Ribbon; and minimize, restore, maximize, and close the program window.
Quick Access toolbar	Appears on the left side of the Title bar and contains frequently used commands that are independent of the tab displayed on the Ribbon.
Ribbon	Extends across the top of the program window, directly below the Title bar, and consists of a set of tabs, each of which contains groups of related commands.
Navigation pane	Appears on the left side of the program window and enables you to navigate long documents, search for specific text, and reorganize content.
Document window	Appears below the Ribbon and displays the contents of the document.
Cursor	A blinking vertical line that indicates where text or objects will be inserted.
Scroll bars	Appear along the right side and bottom of the document window and enable you to scroll through the document.
Status bar	Appears at the bottom of the program window and displays information about the document (number of pages, number of words, etc.). The tools on the right side of the Status bar can be used to display the document in a variety of views and to change the zoom level.

Table 2 – Ribbon Tabs

Name	Description
File	Displays the Backstage view which contains commands related to managing files and customizing the program.
Home	Contains the most frequently used commands. The Home tab is active by default.
Insert	Contains commands related to all the items that you can insert into a document.
Design	Contains commands related to changing the overall appearance of a document.
Page Layout	Contains commands related to changing the layout of a document.
References	Contains commands related to reference information you can add to a document.
Mailings	Contains commands related to creating mass mailings.
Review	Contains commands related to proofreading a document, adding comments, tracking and resolving document changes, and protecting a document.
View	Contains commands related to changing the view and other aspects of the display.
