Faculty of Pharmacy

First-year- semester one

Introduction to Medical Education

Lecture 4: 25.01.2026

Teaching strategies and methods

Mohammed Taj Eldin Abdalla

B. Pharm., M. Pharm., Clinical Pharmacology

Email:Mohammedtaj654@gmail.com

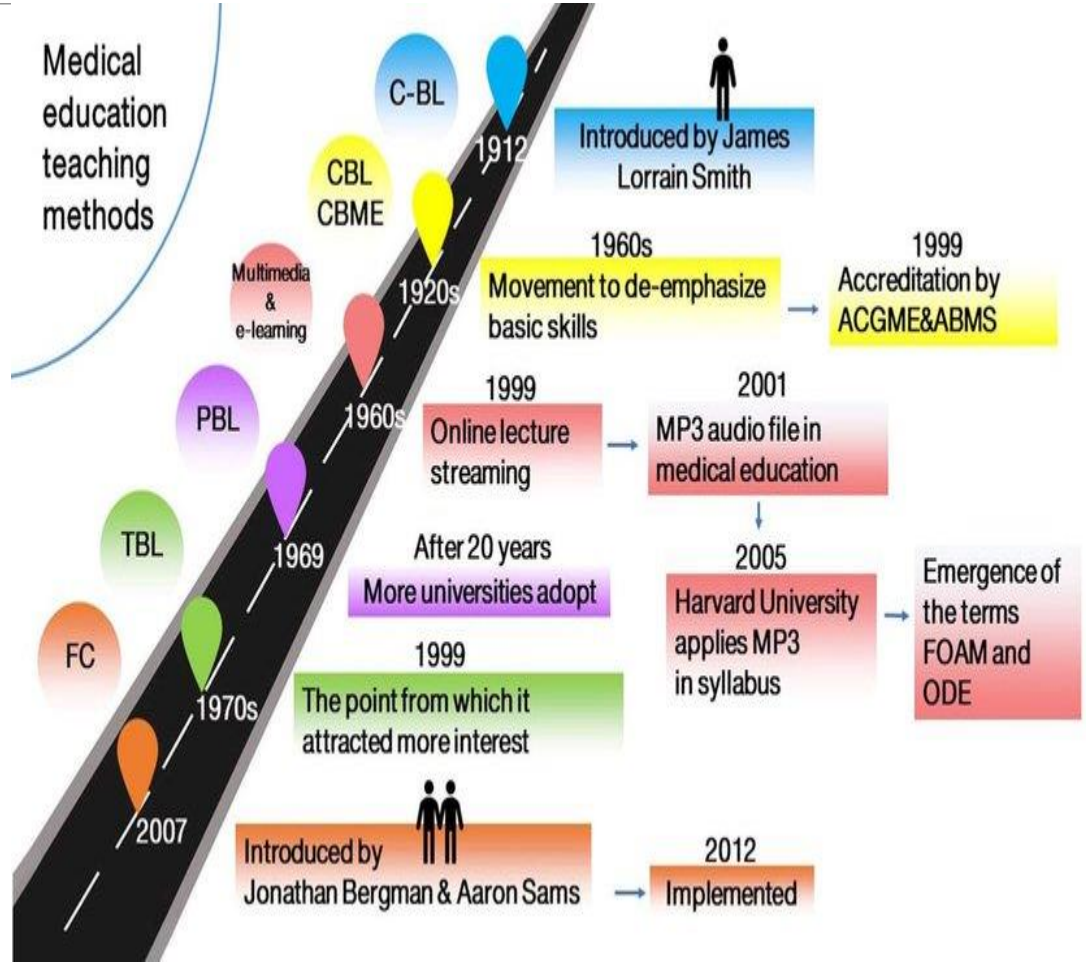
❖ Intended Learning outcomes

❖ By the end of this lecture, each student will be able to:

1. Define the teaching methods.
2. Mention teaching strategy models.
3. Classify teaching methods.
4. Define student seminar.
5. Explain the benefits and objectives of Student Seminars.
6. Describe the structure of a Student Seminar
7. Outline the roles and responsibilities of seminar members.

❖ Teaching methods

➢Teaching methods refer to **the principles and practices teachers use** to **facilitate learning and improve student understanding.**



❖ Teaching strategies models

SPICES model		Traditional models
S Student-centred	VS	Teacher-centered
P Problem-based	VS	Information gathering
I Integrated or interprofessional	VS	Specialty
C Community-based	VS	Hospital-based
E Elective	VS	Standard
S Systematic or planned	VS	Opportunity-based

❖ Classification of teaching and learning methods

❖Based on the Teacher's Role, student engagement, and number of students.

I. Teacher-centered, passive, or large group teaching methods:

1. **Lecture:** The teacher delivers information directly to students.

2. **Direct Instruction:** Structured and systematic teaching focused on specific skills.

II. Student-Centered, active, or small group teaching methods:

1. Flipped Classroom: Students learn content at home and engage in hands-on activities or discussions in class.

2. Problem-Based Learning (PBL): Students work together to solve complex, real-world problems, fostering investigative learning.

3. Role play: students **act out realistic situations** to explore different perspectives and practice skills in a safe, supported environment

4. Simulation-Based Learning (SBL) is an instructional approach that **uses simulated environments or scenarios** to replicate real-world situations.

5. Team-Based Learning: fosters student engagement through **small group work, problem-solving, discussions, and real-world application of knowledge**.

6. Student seminars.

❖ Intended Learning outcomes

- **By the end of this lecture, each student will be able to:**

1. ~~Define the teaching methods.~~
2. ~~Mention educational strategy models.~~
3. ~~Classify teaching methods.~~
4. **Define student seminar.**
5. Explain the benefits and objectives of Student Seminars.
6. Describe the structure of a Student Seminar
7. Understand the roles and responsibilities of seminar members.

❖ Student seminar

- **Student seminar:** is an educational activity where students discuss specific topics and collaborate, promoting active participation and critical thinking to a deeper understanding of subjects.

❖ Intended Learning outcomes

- **By the end of this lecture, each student will be able to:**

1. ~~Define the teaching methods.~~
2. ~~Mention educational strategy models.~~
3. ~~Classify teaching methods.~~
4. ~~Define student seminar.~~
5. **Explain the benefits and objectives of Student Seminars.**
6. Describe the structure of a Student Seminar
7. Understand the roles and responsibilities of seminar members.

❖ Benefits & Objectives of Student Seminars

1. **Active Learning:** Engages students more deeply than traditional lectures, promoting retention of information.
2. **Peer Learning:** Students learn from each other's insights, perspectives, and experiences.
3. **Confidence Building:** Regular presentations help build public speaking and communication skills.
4. **Networking:** Fosters connections among students, which can be beneficial for future collaborations.

5. **Enhance Understanding:** Facilitate in-depth exploration of topics beyond standard classroom instruction.
6. **Develop Presentation Skills:** Provide opportunities for students to present their ideas and findings to peers.
7. **Encourage Critical Thinking:** Foster discussion and debate, helping students analyze different perspectives.

❖ Structure of a Student Seminar

- **Preparation**
  - **Topic Selection:** Choose a relevant and engaging topic for discussion.
  - **Information gathering:** Students gather information and prepare materials (presentations, handouts, etc.).
- **Format**
  - **Presentations:** Each student or group presents their findings (typically 10-15 minutes).
  - **Discussion:** Following presentations, encourage questions and open discussion among participants.

- **Facilitation:**
  - **Moderator:** A teacher or a student may act as a moderator to guide the discussion and keep it on track.
  - **Ground Rules:** Establish rules for respectful dialogue, active listening, and equal participation.
- **Evaluation:**
  - **Feedback:**
    - Provide constructive feedback on presentations and participation.
    - Encourage students to reflect on what they learned and how the seminar could be improved.

❖ Roles and responsibilities of seminar members

1. Leader

- **Responsibilities:** Guides the seminar discussions, poses questions, and encourages participation from all members. The seminar begins with an introductory speech by the leader.
- **Skills Needed:** Strong communication skills, ability to engage others, and a good understanding of the topic.

2. Recorder/ Note-Taker / Scribe

- **Responsibilities:** Records key points, discussions, and decisions made during the seminar for future reference.
- **Skills Needed:** Good listening skills, attention to detail, and proficiency in writing or typing.

3. Presenters / Speakers

- **Responsibilities:** Present specific topics or findings to the group, facilitating understanding and engagement.
- **Skills Needed:** Strong public speaking skills, ability to simplify complex information, and confidence.

4. Timekeeper

- **Responsibilities:** Monitors the time during discussions and presentations to ensure the seminar stays on schedule.
- **Skills Needed:** Organizational skills, awareness of time management, and the ability to communicate time limits politely.

5. Questioner

- **Responsibilities:** Asks clarifying questions and prompts deeper discussion to ensure understanding and engagement.
- **Skills Needed:** Curiosity, critical thinking, and the ability to formulate insightful questions.

6. Summarizer

- **Responsibilities:** Summarize discussions at the end of the seminar, highlighting key points and take-home messages.
- **Skills Needed:** Good synthesis skills, ability to distill main ideas and clear communication.

ANY Qs

Thank You For Your Attention

HAVE A NICE DAY....

Next:...Team-Based ***Learning TBL.***

A passive mindset "manages" to live with mediocre, but an active mindset "leads" to change until excellence results.
